Grounds for the International Complaint

The grounds for this international complaint include but are not limited to the violation of the intangible property right to honest services of which, if any Articles within the Universal Declaration of Human Rights (UDHR) are violated, dishonest services are revealed to the International Community through those violations, to wit;

Failure to Register the Instrument with the Treasury of the United States

The instrument (a mortgage note) between AIGES WHOLESALE CORPORATION and STUART A. RONALDSON, was not registered with the Treasury of the United States as an asset, but rather, the note was bundled with other instruments and diverted to Wall Street and the U.S. Securities and Exchange Commission. The failure to register the mortgage note reveals a dishonest practice of diverting instruments to a non-recognized third party in violation of Article 17 of UDHR. This crime of dishonesty has been reported to the Treasury of the United States.

Breach of Contract

As there was no intent to register the mortgage note with the Treasury of the United States, there was never intent to fulfill the purchase nor deliver the goods stipulated within the purchase contract — in this case the subject property — in violation of Article 4 and Article 17 of UDHR. The act of never intending to fulfill the terms and conditions of a contract is a breach of contract in the nature of never intending to deliver the product and a violation of the intangible property right to honest services which resulted in the theft of labor. This crime has been reported to the Treasury of the United States.

Failure to Register Court Case with the Treasury of the United States

The Circuit Court for Baltimore City, a statutory creature, has an obligation to register within the scope of its creation, cases it settles with the Treasury of the United States. Failure to register court cases is a violation of Article 21, section 1 of UDHR. Therefore, the violation of the intangible property right to honest services by the dishonesty of presenting the appearance of due process to the Public at Large in the process of foreclosures is revealed by the violation of Article 21, section 1. This crime has been reported to the Treasury of the United States.

The Overthrow of the United States

It is the duty of the courts and officers of the courts to be honest. As such, the Circuit Court for Baltimore City and its officers are aware of the obligation to register cases as assets with the Treasury of the United States. As a consequence of failing to register court cases, the Circuit Court for Baltimore City has intentionally withheld assets from the Treasury of the United States thereby engaging in dishonest services to the Public at Large and the United States. The Circuit Court for Baltimore City and its officers, then, are participating in a conspiracy to over-throw the United States by withholding assets which would allow a National Currency to be issued to the Citizens of the United States. The people have a right to a Nationality in Article 15 of UDHR. The violation of Article 15 of UDHR reveals to the International Community the violation of the intangible property right to honest services.

Trafficking

The Trustee is a non-citizen, non-resident alien to the United States of America and has no affiliations nor membership within the MARYLAND STATE BAR ASSOCIATION, INC. Further, the Trustee has no affiliations nor membership within the THE BAR ASSOCIATION OF BALTIMORE CITY.

The Burgess Trust is a trust published within the jurisdiction of the Government of The United States of America.

Despite these facts established as part of the International Record, members of the MARYLAND STATE BAR ASSOCIATION, INC. and members of THE BAR ASSOCIATION OF BALTIMORE CITY continue to pursue a forced eviction against recovered property by the Government of The United States of America which has, subsequently, notified the Treasury of the United States of that recovery. This is a violation of Article 3, 6, 7, 8, 15, 17 and 20 of the UDHR. The failure of each BAR entity to adhere to their proper jurisdiction, that of only regulating members of their private association, reveals the violation of the intangible property rights to honest services.

These acts also reveal violations of the American Declaration of the Rights and Duties of Man, implemented under The Bar Treaty of 1947, as all members of the American Bar Association (and its subsidiaries the State Bar Associations) are directly subject to it.

This is also a violation of Executive Order #13107, "The Implementation of Human Rights Treaties", signed in December 10, 1998 by U.S. President William Jefferson Clinton.

Felony Conversion of the International Record

On or about July 21, 2015, the General Post Master Council, a court of record for the Government of The United States of America, did issue a judgment and order to quiet title for the subject property owned by The Burgess Trust (publication link: <http://theunitedstatesofamerica1781.com/general-post-master-council-publications/>).

On or about August 20, 2015, the Trustee served a professional courtesy notice of the Quiet Title proceedings and a copy of the judgment and order to the Circuit Court for Baltimore City and to the named substitute trustees attempting to conduct a forced eviction.

Rather than providing honest services, and the case expunged from the record as a professional courtesy and as acknowledgment of honest services, the aforesaid judgment was translated into a motion and, with motion denied by the Circuit Court for Baltimore City, the forced eviction proceedings continued. The General Post Master Council's document was written in plain English without big words, therefore the intent to engage in dishonest services is revealed by violating Article 6 of UDHR. The intangible property right to honest services are violated by a translator hired by the Circuit Court for Baltimore City making arbitrary translations of International Documents that are authentic and a matter of Public record.

Fraud upon the Court – Bringing False Claims

Transfers of the mortgage and/or deed of trust that occurred between 2006 and 2013 (Aegis Wholesale to Washington Mutual to Chase to Select Portfolio Servicing, Inc.) were never recorded with Maryland Land Records as demonstrated by Maryland Land Records Digital Retrieval System report. As such, chain of title to the mortgage and/or deed of trust was trafficked by third-parties. Any claim to interest in the property cannot be proven by public record by these hidden third parties. The filing of false claims by the

substitute trustees is evidence of dishonest services upon the court and a violation of Article 8 and 10 of UDHR which reveals the existence of a violation of the intangible property right to honest services.

Violation of Due Process

It is self-evident that a “biased” or “tainted” court, or a court that is party to conspiracy, fails any reasonable standards for due process and honest services tendered to The Burgess Trust and the Public at Large.

Human Rights Violations and Intangible Property

As previously noted, Executive Order #13107, "The Implementation of Human Rights Treaties", makes the United States a party to the Universal Declaration of Human Rights.

The Universal Declaration of Human Rights is enforceable by customary international law; however, the intangible property right to honest services is paramount in this International Protest.

The continual perpetration of dishonest services committed by the City of Baltimore would be justification of removal of all lines of credit and a general warning being issued to all private investors of the notorious existence of dishonest services within the City of Baltimore. This dishonesty is also rampant, disciplined and exact, and carefully carried out in every case handled by the BAR associations and filed in the Circuit Court for Baltimore City.

How can the U.S. Treasury continue to sell Bonds to private investors acting as an agent for the Bank of New York Mellon knowing that the Bonds are not registered with the Treasury of the United States directly under the watchful eye of a commander-in-chief?

The aforementioned case heard through honest services rendered by the General Post Master Council for the Government of The United States of America stands.

Autographed this 59th day, in the year of Yahweh, 6018 (May 17, 2016)

John Harold Fulks
Governor
