

Greetings Michael, I sent two other emails to you regarding Dylan's wellbeing and ability to see i. We are awaiting your response. Please respond to all. You should now be able to clearly identify the conflict of interest for allowing your supervision(cannot be impartial). If the purpose to supervise is to report and you cannot remain impartial then you cannot report and or supervise.

However, a private doctor can and I'll pay for it today. So, as this conflict exist, in fact, so true the bias also exists. My last two email messages to you were to make it clear the two court cases exist in conflict with one another. Is this not clear?

Now, if you are not the man who can say or do anything about this please let us know who can. If you're going to attempt to deny Dylan and I the right to see one another by threats and force you can explain yourself and why you believe your supervision is acceptable and private is not?

Also explain why you think I should to be forced to accept your services at all when I offer better or equal service for the same purpose. Do you believe your are superior reporter then my private MD? Is it not true that he is a mandatory reporter as well? He is, so there you have it. What's stopping you from acceptance? I require to know.

Thank you,
David

Subject: RE: Dylan Mabardy - second email.

David,

The matter of custody of your son Dylan is before the Cambridge Juvenile Court.

They will determine whether to terminate your parental rights to Dylan. There is no other jurisdiction in this case. Your son will not be returned to you anytime soon as you have not been to court or shown interest in visiting with him.

I know you just told me you are not interested in visits.

However, You are welcome to a supervised visit in the area office.

You do not have to do any of the tasks we or the court asked of you to have the visit.

You don't have to attend court or do anything else as you have a right to visit your son.

You don't have to agree with us about our perceptions and we don't need to have any discussion.

You can simply come and visit your son. It will be supervised by me. As before I will not be in the room with you but will be present for the visit.

Michael Coughlin, M.Ed LMHC

Subject: Dylan Mabardy - second email.

Good Afternoon, I sent this to you last week. You didn't respond Yet. I am awaiting your response. Thank you, David.

Greetings Michael,

I write to you the man employed as Supervisor with Massachusetts DCF corporation today to talk about your offer of Supervised Visits with Dylan. A copy of this will also go to my private attorney because I currently have a lawful claim pending against all the wrongdoers including your employer for horrendous, terrible crimes and paternalistic acts. You may find said suit published here: http://humanrightstribunal.international/?page_id=662 Additionally, I have included some of Dylan's loved ones on a copy of this as well.

You and your associates continue to offer i Supervised Visits. No thank you. That's not going to work. As a matter of fact, I have a current lawful claim therein this idea of said visits presents a conflict of interest, whereas, I am not going to accept a benefit/privilege from your Organization while a lawful claim is underway.

This presents a fundamental on-going problem for Dylan because Law suits take time and for more than 2 years now Dylan has been discriminated against and imprisoned(unable to exercise his liberty to act willfully and be where he belongs, IN RIGHT) by the malfunction we address over and over resulting from said conflict and said wrongdoing.

Unfortunately, that's just how things go but Dylan is the most innocent victim of this and we should always do our best to protect him. So, for good cause, in good faith and with right reason, to demonstrate what's right for Dylan's best interest and well-being:

I, once again, offer private supervision. i am hiring my private doctor who's credentials are superior to most, to supervise and help Dylan with this traumatic experience that's been thrust upon him wrongfully, robbing him of 10 years of his life, and a huge loving family, all the while YOU fabricate an illegitimate life for him and profiteer.

If you are not the man who is able to make the choice to help Dylan in this way I ask that you please direct me to the proper party so Dylan can see I again ASAP.

I am prepared to make this happen Right Now. The best and most proper thing you can do is restore my property post-haste, however if you're going to continue the sham until judgment day com than don't make Dylan suffer any further, take my offer now and set the schedule.

Thank you, have a blessed day,

David
