Summary

(September 8, 2005)- During the hurricane aftermath in New Orleans Local police and the National Guard while under the command of now retired Lt. General Russell L. Honoré of the U.S. First Army were going door to door to look for people that did not evacuate. The aforementioned groups were breaking into homes with guns drawn. The Police Chief said that all guns would be confiscated and that no one would be allowed to have any weapons. These groups went into homes that were in the high and dry areas also. People were handcuffed and made to sit on the curb while the groups went into the owners homes and took the owners guns. The home owners were told they could go to the dome with everyone else or they could stay in their homes. However, if the home owners stayed, the home owners would not have any protection from looters because the groups were taking their guns. One of the National Guard groups used a Church as a base camp and just left a note to let the Pastor know because they said they couldn't find him. One of the Guardsman said he would rather be in Iraq rather than patrolling these neighborhoods. The Guardsman said: "Walking up and down these streets you don't want to think about the stuff you will have to do. If somebody pops around the corner" (then the reported piped in and said: "Shoot Americans?") and the soldier said "yeah". They were also getting the clergy to help push their agenda, evidenced below, and

(July 18, 2016) Within a YouTube video between reporter Chris Cuomo and Respondent which was also a regular contributor for CNN at the time of the interview it states:

This is a CNN report from him after 3 Officers were killed and 3 injured in Baton Rouge attack.

Honoré: “This introduction of long guns and the availability of them on the street, and what makes this even more confusing Chris is this idea of open carry. How stupid is that.”

Chris Cuomo: “Well its not stupid to the people that voted it in. They have it here and in Ohio and around the country.”

Honoré: “It’s stupid. In retrospect, it’s stupid. In a Democracy for us, I’ve lived nine and half years overseas. Spent 37 years in the Military. No country I went to even in war zones did you see people walking around willy nilly carrying a gun. The good guy with a gun concept is kinda backwards, it’s ill-conceived as a tag line and it’s ended up with people believing it is a right. This idea of guns anywhere anytime is bad. And it has not shown to any appreciable difference in any of these instances.”

Cuomo: “Well you hear this every time General is that if more people had weapons when you have a mass shooting you have a better percentage chance of the shooter being taken out sooner.”

Honoré: “And there’s no doubt on that. That’s TV type stuff.”

Cuomo: “Those if favor of carrying their guns more easily say there’s no data because you don’t allow us to do it. If we were allowed to do it more often like in Ohio and Louisiana the things might be different.”

Honoré: “We’ve got the most liberal gun laws in the country. If you’re over 17 yrs old you can carry a gun here openly if you are a non-felon. So we’ve got guns everywhere. What this has done is made our police less safe. So we are talking about making our police safer and one way we can do that is to seek out and find ways to have these zones.”

Cuomo: “You don’t see these zones as bait to mad men, that’s the argument right, that when you have these gun free zones that means I can go there because there are no guns and I can be even more violent successfully.”

Honoré: “We will never control the mad men. We’ve got to use intelligence, communities, and families to try to seek them out. Those are lone individuals hard to stop. But when we do engage them, the police are brace as heck will have to develop that situation. It’s going to take them more response time for them to develop the situation as opposed to running in full bore every time something happens.”

Respondent has repeatedly advocated for **Theft** of personal property by means of taking guns and ammunition, as evidenced during the Hurricane Katrina aftermath, away from inhabitants superseding property rights for the advancement of communism within the political agendas of the Democratic Party. The aforementioned interview can be evidenced below, and

Taking over Power of Attorney for others is a form of **Slavery** wherein Respondents own words and statements adversely impact the lives of others. The following interview between Respondent and Roland Martin is evidence of the aforementioned allegation:

Start of Video.

Roland Martin- General umm Donald Trump to Greg’s point said to them these white supremacists these white domestic terrorists have free reign I am going to let you do whatever you want to do I wouldn’t be shocked general. The folks who gets arrested. He gives them pardons before he leaves.

Honoré- Well worse than that Roland. I think that the police department and capitol was complicit. I’ve delt with those people when I was in the pentagon on the joint chiefs of staff and we used to provide military support to civil authorities for inauguration and major events inside the city of Washington and that’s a well oiled machine and what we saw yesterday. The capitol police make decisions in coordination with the sergeant at arms in the senate and the sergeant at arms in the House. Yesterday at three o’clock I called for all of them to be fired. And that will stop the habit that will stop the farm. But that was complicit. People inside the chain of command of that capitol police that allowed this to happen. I went into the capitol Roland, a three star general, three stars on each shoulder in full uniform and them ass hats took a lighter from me. You understand? They selectively applied the law and they allowed their buddies in yesterday and they destroyed a good portion of the

house. And people need to go to Jail there need to be a DOJ investigation. None of this bullshit congress investigation and we need to hold people accountable.

6 min mark

Honoré- In their mind they have this idea that the election was stolen what they really are PO'ed about is that now the democrats own the white house, they own the senate, and they own the house. And they are worried that they will lose their white power. They are worried about loosing majority rule in the next thirty to forty years. Cause America is changing. And that is what I believe. A lot of the believers I talk to. That's the code they talk in Roland. They don't like the browning of America.

Roland- General the. From your perspective what's next? Because this is what I keep seeing. These white domestic terrorists. They are not going anywhere. These people are gonna cause more mayhem, there is going to have to be a lot more vigilance. There's going to have to be, you know a lot more focus and this is where. Here is Here's the other deal I mean. You still have not had a major news conference from the FBI. You have not, this is why Donald trump is so dangerous. He is literally preventing the federal government from investigating how they should be doing this here. You cannot convince me under any other president. That if there was an insurrection on the day the congress was in session and the house and the senate. You would not have someone coming out talking to the American people. Giving and update. They found two explosive devices near the democratic national committee and republican national committee. There was one guy who was arrested with eleven Molotov cocktails. These people were hell bent on overthrowing the government yesterday.

Honoré- Roland, There's a old preacher, country preacher from down where I come from Lake Louisiana who used to talk about when bad things happen. How do we take this disaster and use it to learn from and to expose. What happened yesterday in the full view of the world, in America would be use of the internet and these phones. It took the sheet off a bunch of people claiming themselves to be conservative, and what they are are racists. They took the sheet off. And than a way it happened. I wish it hadn't happened but the fact the way it was documented and there was focus on the people House with the Senate and the House in session. We probably with extend the life of our Democracy another 100 years because of yesterday. Because it exposed the BS that's been going on at Mar logo and all these other places that these folks go off and do their planning that racism is driving the political future of this country and we have an opportunity now, with all three branches of government to do something about it.

Roland- Well I believe your absolutely right, and people have asked me this. General, people have said, Roland, when you saw yesterday, what was your initial response? And I was honest General. I smiled and I said good. Because, I needed white folks in America, to see white folks in America, doing what white folks in America have done since the inception of this country. They cant sit here and say it was the blacks. Cant say ooooh it was, it was the browns. No no no. They had to be forced to see it. All of these republicans that have stood with these people. Who have explained them away. Who have supported them. Who have taken photos with them. They now have to now answer. Which side are you on? Which side are you now on? So there is no separating here. No separating once so ever. They got to answer that. And that, that point you just made, I said the same thing. We always knew it. Black folks, we always knew it. But white America had to see the hatred for themselves. And now they got to decide, who you gonna roll with? Them or us?

Honoré- Yea, and they keep, have used this they stole the election. What they are worried about is loosing majority Roland. They saw what happened in Georgia. What happened in Pennsylvania, and other places. Where people got out to vote and they were organized. And now we got an opportunity. Just to change the direction a little bit. Because this is a work in progress but there is soo much evil that has happened in the last six months, and were doing it in the middle of a pandemic. Now its routine now to loose four thousand people a day. We gotta get back on that story, and yesterday was a big spreader event. They all goin back to their towns now, and taken even more COVID back. And we gotta get past the inauguration and my recommendation to secretary to some of the people on the President Biden staff. Is lets get done with this inauguration. This is a 12:14 big focus on doners and balls. The hell with all that. Make sure you got your acting secretary of defense walking in the pentagon at one o'clock your acting homeland security. Your acting DOJ, and your acting FEMA. All those people need to walk in those buildings and take command as soon as the inauguration is over with. So we got control of the government. And all those trump people need to leave.

Respondent attacks a category of inhabitants labeled by Respondent as conservatives and Donald Trump supporters in hopes of destroying the securities of person in an attempt to bring forth a full communist agenda. This nefarious schedule is an attempt to destroy humanity by attacking society. Respondent is using terms such as "browness" and "white power" inciting discrimination and agrees with the labels given as "white supremacists" and these "white domestic terrorists," choosing to claim power of attorney and speak on behalf of this subset of people. The aforementioned interview can be evidenced in the YouTube link below, and

(February 23, 2021 discussing events on January 6th 2021)

Respondent was selected by members of the 527 organization known as the Democratic Party to lead a review of the alleged attack on the sovereign city state, Washington D.C., wherein evidence shows the alleged attack was perpetrated by liberal group(s), more specifically ANTIFA members who favor and advocate for the 527 organization, Democratic Party, as evidenced below. The obvious reason for selecting Respondent is the political affiliation and views Respondent has with the Democratic Party whose own supporters attacked the White House.

What we are seeing in society amongst the inhabitants is what is being called culture canceling. This is an attempt at slavery and an attack on society and economy to bring forth what is full blown communism.
